Lifetime Learners 2026 Fall Term

Dear Members and Friends of LLI,

Welcome to Lifetime Learners' fall term. We had a successful summer session, and I am confident that we are all looking forward to the fall term. Classes start on Monday, September 14th.

The Curriculum Committee has given us a wide variety of interesting courses to pick from. We are pleased to welcome back Dr. Olena Lennon from the University of New Haven, who previously taught two very popular classes on the Russian invasion of Ukraine. She will be teaching a course titled *The Geographic Foundations of National Power*. There are four different art classes; history, exercise, poetry, music, and film classes; and two discussion classes, current events and the short story discussion group. There is something for everyone!

We are exploring some new classes and activities for the future. There will be some exciting announcements in the future.

The various committees are hard at work setting up our special events, growing and marketing LLI, putting the quarterly catalogs together, talking to potential new instructors, and doing many of the mundane tasks that must be done to keep LLI not only functioning but thriving.

Please remember this is our organization; we are all in this together. We are looking for ideas and suggestions from our members. What subjects would you like us to offer? What classes are the most interesting? Do you know of any potential new instructors? Do you know any interesting potential speakers for our Lunch and Learn programs? Do you want to volunteer or join a committee? Please feel free to invite any of your neighbors, friends, and family to our Open House program. If you have any suggestions, feel free to contact me or any board member.

I am always happy to hear from members. If you have any questions, concerns, or suggestions that could help strengthen LLI, please don't hesitate to reach out. You can contact me by phone at 845-901-9430 or by email at gai4rui4@gmail.com.

We look forward to seeing you in our classes and at upcoming Lunch and Learn events!

Sincerely,

Gary Bischoff

Recent events have reminded us how geography shapes the rise, projection, and limitations of national power. - Week 2: Buffer states, geopolitical origins of the Russia-Ukraine war
- Week 3: Iran, Israel, and the geopolitics of the Middle East: energy, security, and regional power competition
- Week 4: Energy security, Iran energy crisis, geopolitics of oil and natural gas
- Week 5: The post-Soviet space: Russian influence, frozen conflicts, Eurasian security
- Week 6: China's rise, the Belt and Road Initiative, geography of Eurasian power
- Week 7: South America in global geopolitics, the influence of China, Russia, and the U.S.

Tiffany & Co. and Tiffany Studios

Sept. 14, 28, Oct. 5, 12, 19, 26

Zoom

1:10 pm – 2:50 pm

The Tiffany name is synonymous with luxury. Join us for this peek behind the scenes to explore the 1837 founding by Charles Lewis Tiffany of the jewelry store, Tiffany & Co., and the subsequent founding by his son, Louis Comfort Tiffany, of Tiffany Studios, known for its leaded-glass lamps, mosaics, stained-glass windows, and luxury objects. Many of the items produced by Tiffany Studios were designed by Louis Comfort Tiffany -- himself a talented fine artist, craftsman and jewelry designer. He also brought scientists into the company to help revolutionize glassmaking. We learn how his contributions, along with that of other artists, artisans, craftsmen and designers, transformed Tiffany & Co. and Tiffany Studios into the iconic companies they are today.

- Week 1: Beginnings: Charles Lewis Tiffany, an American businessman, visionary entrepreneur, and jeweler, founded New York City's Tiffany & Co. in 1837.
- Week 2: Louis Comfort Tiffany and the Tiffany Studios: revolutionizing glassmaking, designing iconic leaded glass lamps, mosaics, windows, and luxury objects.
- Week 3: Seeing Louis Tiffany and the Tiffany Studio in a New Light: Clara Driscoll and the Tiffany Girls' true role.
- Week 4: Louis Comfort Tiffany and Artistic Luxury: How Tiffany adapted decorative arts themes in nature for his jewelry and enamel creations.
- Week 5: Louis Comfort Tiffany and Decorative Arts: How Tiffany adapted themes in nature for his lamps, mosaics, windows, and luxury objects.
- Week 6: Jean Schlumberger as Tiffany & Co.'s Whimsical High-End Jewelry Designer for its signature and most iconic designs.

She was formerly an Adjunct Professor at the University of Connecticut in Digital Media.

TUESDAY COURSES

Art – What is the Purpose?

Sept. 15, 22, 29, Oct. 6, 13, 20, 27, Nov. 3

Zoom

10:00 am – 11:40 am

Art is a moveable feast, and can evoke strong emotional responses. Just like a feast we see things we like and want more of, and other things that we dislike. A historical scene may inform us; a still life may soothe our soul; a painting that exposes the dark side of humanity may frighten or repel us; a religious painting may strike a moral chord. Throughout the course we discuss 20th century artists and how their style and influence prompted our reactions. *Revised course*

- Week 1: Overview of the evolution of 20th century art
- Week 2: German Expressionism
- Week 3: Russian Suprematism
- Week 4: Chagall war images
- Week 5: American WPA, break with reality—Pollack and de Kooning
- Week 6: Black Art, Mexican Murals
- Week 7: Pop Art
- Week 8: Shock Art-Francis Bacon, Freud, discussion of 21st century contemporary art

Letting Go After a Lifetime of Accumulating – 4 weeks

Sept. 15, 22, 29, Oct. 6

On Campus 1:10 pm – 2:50 pm

For our entire lives, consumer culture has encouraged us to have more: clothes, furniture, keepsakes, more of almost everything. Over time, those possessions can become overwhelming, and even result in feelings of guilt and shame. Letting go not only creates more space, but also, unexpectedly, more freedom, time, and peace of mind. We explore why we accumulate, why letting go can be so difficult, and how to begin this process in a thoughtful and practical way. Through personal stories, discussion, and actionable strategies, participants will learn how to lighten the load and create a home that better reflects the living space we envision.

- Week 1: How consumer culture shaped our habits and why today's homes contain more possessions than any generation before us
- Week 2: Understanding emotional attachment, guilt, and the psychological barriers that make parting with possessions so difficult
- Week 3: Discovering how having less clutter can reduce stress, increase freedom, and create space for what matters most
- Week 4: Practical strategies to stop the accumulation cycle and create a home that reflects your values and priorities

New Instructor - Melora Johnson is the founder of Sustainably Styled and a speaker, consultant, and educator focused on sustainable living, mindful consumption, and the benefits of living with less. Her interest in the topic began and expertise developed through her work in sustainability and community reuse initiatives, including founding a community closet that diverted tons of usable goods from landfills, while serving hundreds of people each month.

In addition, some downright socialist ideas expressed a post-WWII musical, *Finian's Rainbow*. We provide historical and biographical contexts for these works, and opportunities for special requests for your particular favorite works.

WEDNESDAY COURSES

Irving Berlin's America: A Reassessment

Sept. 16, 23, 30, Oct. 7, 14, 21, 28, Nov. 4

Zoom

10:30 am – Noon

Jerome Kern famously observed of Irving Berlin that, rather than merely having a place in American music, Irving Berlin is American music. Our country's 250th anniversary offers a special opportunity to revisit his rags-to-riches story and his celebration of core American values. We trace the trajectory of his career, from his hardscrabble beginnings, through his early success with *Alexander's Ragtime Band*, and his stewardship of his legacy. We salute many of his iconic songs that we know so well. We discuss his promotion of Ethel Waters and his efforts to expose racism in Broadway theater. In exploring his remarkably prolific portfolio of music, it is amazing to note that Irving Berlin was unable to read or write music and could play the piano in only one key. *Previously offered course.*

- Week 1: Overview and hardscrabble beginnings
- Week 2: Ragtime in context, *Alexander's Ragtime Band* and international fame
- Week 3: Camp Upton and *Yip-Yip Yaphank*
- Week 4: Courtship of Ellin Mackay, *Blue Skies* and *How Deep is the Ocean*
- Week 5: *Puttin' on the Ritz*, *As Thousands Cheer*, Ethel Waters and Billie Holiday

- Week 6: *God Bless America vs. This Land is Your Land*
- Week 7: *Call Me Madam*
- Week 8: *Annie Get Your Gun*

Joshua Berrett earned a BA from the University of Cape Town in South Africa, an MA from Columbia University, and a PhD from the University of Michigan. He is a Professor Emeritus at Mercy University, a freelance violinist and the author of many publications on music. He has made presentations nationally, been interviewed on NPR, and lectured abroad. With his wife, Lynne, he is co-founder of the non-profit Ageless Mind Project, Inc.

Poetry and Feminism

Sept. 16, 23, 30, Oct. 7, 14, 21

Zoom

10:30 am – Noon

It was once widely believed that women and the female experience were incompatible with writing poetry. But with second wave feminism in the 1960's and 70's, women's voices emerged in poetry as well as in political movements. We examine how these poets "turned, twisted, and blasted open poetry's forms, subjects, and institutions to make room for their experiences and their voices." (Poetry Foundation) The poems include considerations of female sexuality, authorship, motherhood and gender. Join us as we explore an exciting array of women's voices, including Muriel Rukeyser, Denise Levertov, Marge Piercy, Sylvia Plath, Gwendolyn Brooks, Maxine Kumin, Diane Wakoski, Adrienne Rich, May Swenson, Sharon Olds, Margaret Atwood, Marie Ponsot, Audre Lorde, and others! No experience with poetry is required; poems will be read and discussed during class, with all being encouraged to participate.

Sandy Soson has a BA in English from the University of Michigan and an MA from Wesleyan University. She has taught high school English for her entire professional career. In recent years she has run the Poetry Out Loud program for local high school students, facilitated writing workshops for adults, taught ESOL as a Literacy Volunteer as well as taken and taught courses at Lifetime Learners. She is passionate about poetry and enjoys sharing her love of it with others.

Watercolor Exploration

Sept. 16, 23, 30, Oct. 7, 14, 21, 28, Nov. 4

On Campus 1:10 pm – 2:50 pm

Join us to explore and learn about watercolors. Students of all experience levels—whether beginner, intermediate or advanced—will learn about different watercolor paints, techniques and media with which they may experiment. Relationships in Film: Men and Women

Sept. 16, 23, 30, Oct. 7, 14, 21, 28, Nov. 4 Zoom 1:30 pm – 3:00 pm

Let's take a look at the relationships between women and men in the movies, where they seem to get along as well or as badly as they do in reality. After the first class, members will be asked to watch one full-length film outside of the class, which we will then discuss at the next session. (Films will not be viewed in class). We focus our discussions on what the film means to each of us, as well as what we bring to the film – how our personalities and experiences shape our responses to the film. This selection of movies represents a variety of time periods and cultures: Canadian, British, Swedish, American and Japanese. These are films that participants may never have seen or may not have seen in a long time. Many libraries offer free streaming services, but no single streaming service carries all of the films; participants may at times have to pay a fee for rental.

- Week 1: View introductory film clips. For next week view *The Graduate*
- Week 2: *The Graduate*. Next: a slapstick version of *The Taming of the Shrew*, American Conservatory Theater production, 1976

THURSDAY COURSES

Short Story Discussion Group – 1 hr. class

Sept. 17, 24, Oct. 1, 8, 15, 22

Zoom

10:30 am – 11:30 am

For readers who do not have the time for longer fiction, the short story provides the same exhilaration and joy of reading as any other literary genre – particularly in a discussion setting. This one-hour course offers reading enthusiasts an alternative to the standard book group. We include authors from the Western Canon (e.g., Joyce, Hemingway, Wharton) as well as foreign and contemporary authors. Each story, which is usually less than ten pages, will be emailed the week before class, allowing participants to absorb the content and fully engage in the discussion. While we explore the various literary devices of the story (e.g., theme, plot, characters), the primary element for discussion will be our personal and diverse opinions of the story. Always new stories!

Zentangle: Introduction to Mindful Drawing – 1 hr. class

Sept. 17, 24, Oct. 1, 8, 15, 22

Zoom

10:30 am – 11:30 am

Zentangle is a fun, easy-to-learn, mindful drawing practice. In the guided drawing classes, students learn to create structured patterns with simple lines and curves. Coupled with meditative principles, students learn to enhance their creativity, confidence and calm. No art background needed.

Supplies needed: Paper, fine tip black pen, sharp pencil, rolled paper smudger or Q-tip.

- The Basics - Explore the steps of the Zentangle method and create artworks using structured patterns, “tangles.” Discover how simple strokes become three-dimensional magic in no time.
- Exploring contrast: Explore pattern types, organic grid border tangles, and discover how juxtaposing contrasts makes the art pop!
- String Thing: Discover the comfort in small divided sections of the “string.” Working in small areas, find an endless variety of opportunities inside and outside the lines.
- Shading technique: Explore how simple strokes of the pencil and rolled paper smudger create surprising dimension, depth, and emphasis, where 2-D will become 3-D in a few strokes.

Kathy Shapiro is a certified Zentangle teacher. She has spent most of her career producing Broadway and off-Broadway theater and developing innovative arts programs for community engagement. She is the founder of Magic Me, the leading intergenerational arts program in the United Kingdom. Teaching Zentangle is a natural integration of her love of arts and community connection.
