Lifetime Learners 2025 Spring Term

Dear Members and Friends of LLI,

Here are a few things that Lifetime Learners have been heard to say:

“There is an amazing level of competence in this group. I’ve learned so much.”

“I didn’t know how to recover from retirement. LLI gave me the answer.”

“Sometimes I just want to sit and listen. Sometimes I want to share what I have experienced. LLI gives me both.”

“This is so different from other organizations because you get so much more from a series of classes – and you get to make new friends who share your interests.

As the spring bulbs push out of the ground, you too should push out of the house and join your friends at Lifetime Learners. We will keep you entertained, informed and connected.

Discuss classic novellas in person. Paint a masterpiece on Zoom. Dive into the history of shipwrecks in a hybrid class. There are so many ways to light up your brain and put a smile on your face. And don’t forget our Brown Bag Lunch and Learn sessions. Those are free for members each Friday at 12:15 (except April 18th).

LLI is ready when you are. Let’s go!

Best Regards,

Fay Ruotolo, President
Lifetime Learners Institute

The Roaring 20's

In-Person

1:10 pm – 2:50 pm

March 10, 17, 31, April 7, 14, 21 *(No Class March 24)*

The Roaring 20's.... From American women gaining the right to vote in 1920 to the 1929 stock market crash.

- 1918-1919: 1918 was a terrible year. War raged until November 11th when the guns fell silent and influenza was killing millions of people around the world. Babe Ruth emerges as a star; Tarzan hits the big screen. Time is standardized in the United States. Some women get the right to vote in the United Kingdom. There is a mistake on a US stamp and US air mail is introduced. 1919 was not much better: the Spanish Flu continued to rage, while countries dealt with the war's aftermath, race riots and a red scare. American President Woodrow Wilson wanted to lead the world, get the peace and start an international entity to negotiate agreements without war. Wilson suffers a stroke and becomes an invalid.

- 1920-1921: America does not have a functioning President, women can vote, the country goes dry and there is a presidential election in 1920. In 1921, Warren G. Harding becomes the President and America snaps out of a recession.
- 1922-1923: There is a women's-only Olympics in Paris, women are not allowed to play soccer at a high level. The radiola is selling, Mussolini takes power in Italy, Hitler is giving anti-Jewish speeches in 1922. In 1923 Harding dies and the Charleston becomes the craze. Hitler attempts to overthrow the German government.
- 1924-1925: American immigration policy changes, Hitler is released from jail, Lenin dies and Stalin becomes the man in the Soviet Union. Gershwin writes *Rhapsody in Blue* and the first Macy's Parade takes place. In 1925, the Scopes Monkey Trial takes place, the *Great Gatsby* is released and the KKK stages a march in Washington. Prohibition and the flappers go hand in hand.
- 1926-1927: The first movie with spoken words, *Don Juan*, is released, but it is not considered the first talking movie. NBC, Winnie the Pooh and Mary Poppins make their first appearances. Henry Ford introduces the 40 hour week. 1927 is probably the year the modern world emerges. Talking movies, a non-stop solo flight to Paris, Clara Bow is the "it" girl, Babe Ruth hits 60 home runs as part of the New York Yankees "murderers' row." The Nazis are a fringe party in Germany.
- 1928-1929: The American economy is still humming but there are signs that something is amiss. The Nazis lose big in German elections, Mickey Mouse or Mortimer Mouse or Steamboat Willie makes its debut. The yo-yo is introduced to Americans and George Gershwin writes *An American in Paris* but by the end of 1929, the Roarin' 20's comes to a smashing end with the collapse of the stock market—the setting for a global depression. Popeye appears in newspaper comics, the car radio becomes a thing and sunglasses are in vogue.

In 1971 at age 15 **Evan Weiner** started his career in radio and newspapers. He is a global speaker and author on the politics of sports business, and has also won a number of journalism awards.

WEDNESDAY COURSES

Louis Armstrong: An Ageless Icon Revisited

March 12, 19, 26, April 2, 9, 16, 23, 30

Zoom

10:30 am – Noon

In the words of Wynton Marsalis, the sound of Armstrong’s horn “was a pure spiritual essence, the sound of America and of Freedom.” Drawing on extensive fresh research, we explore that essence and how it originated in his hardscrabble upbringing, strong work ethic and competitive streak. Included are the early influences of his time in the Colored Waifs’ Home, opera, clarinet players and how these helped shape his inclusive view of jazz. As he once put it, “anything you can express to the public is jazz.” Marsalis’s use of the word “freedom” underscores a key point—that Armstrong laid the foundation for the jazz solo and the idea of playing “hot” away from the score. This was the case with his seminal groups the Hot Five and the Hot Seven, where his second wife, Lil Hardin, deserves much credit. The balance of the course covers iconic musical selections, duets with Bing Crosby, Ella Fitzgerald and others, and Armstrong as activist, political ambassador and movie actor. (*Will include some material from a previous course.*)

- Week 1: Child with Back o’ Town background
- Week 2: Black Benny, Bechet, and opera
- Week 3: In Thrall of Papa Joe
- Week 4: A “high powered chick” hatches a soloist
- Week 5: Duets with Bing, Ella, Duke, and others
- Week 6: Becoming Ambassador Satch: from Memphis to Moscow
- Week 7: Actor and musician in movies
- Week 8: *Hello Dolly*, *What a Wonderful World* and a “daughter” goes public

Joshua Berrett is an internationally recognized authority on Louis Armstrong with a major article, *Louis Armstrong and Opera* and two books on Satchmo. He earned a BA from the University of Cape Town in South Africa, an MA from Columbia University and a PhD from the University of Michigan. He has also studied at the Manhattan School of Music, Juilliard, and the Tanglewood Music Center. He is a Professor Emeritus at Mercy University, a violinist, and the author of many publications on music. He has appeared on NPR, made presentations nationally and abroad, in such countries as Italy, Israel and South Africa. With his wife, Lynne, he is co-founder of the non-profit Ageless Mind Project, Inc.

Poetry and the Environment

March 12, 19, 26, April 2, 9, 16

Zoom

10:30 am – Noon

Who doesn’t love a poem about the deep woods, or lovely fields, or the wide ocean? When we think of poems about nature, we often leap back to the beautiful rural landscapes of the Romantic poets. Yet contemporary poets tend to write about nature more broadly than their predecessors. We examine how poets serve as witnesses to climate change and the complicated connections between and among people and fellow creatures and nature. The poems are both tragic and hopeful, capturing the beauty of our world and our yearning to preserve it. No prior experience with poetry is required, and we encourage you to share your impressions. Poets may include: W.S. Merwin, William Matthews, Yusef Komunyakaa, Gregory Orr, Mona Van Duyn, Maxine Kumin, Joy Harjo, Wendell Berry or William Stafford.

Sandy Soson has a BA in English from the University of Michigan and an MA from Wesleyan University. She has taught high school English for her entire professional career. In recent years she has run the Poetry Out Loud program for local high school students, facilitated writing workshops for adults, taught ESOL as a Literacy Volunteer, as well as taken and taught courses at Lifetime Learners. She is passionate about poetry and enjoys sharing her love of poetry with others.

Revolt of the Planters

March 12, 19, 26, April 2, 9, 16, 23, 30 Hybrid 3:10 pm – 4:50 pm

What is popularly viewed as the Civil War or the War Between the States began as a revolt by the planter class. America's royalty—basking in cotton, slaves and mint juleps—feared the coming of industrialization. In an effort to stop the clock in the 18th century, they revolted in the 19th. Their revolution was from the Right, not the Left—to maintain the gentry system of ruralism to hold on to economic and political control. The Confederacy was not only an agrarian state but a supremacist state.

Yet the attempt to rend the Union will come to naught. For in the modern industrialized world, a nation of farmers will not defeat a nation of wrench-turners in the arena of war. The Confederacy's time was brief. But it did provide an object lesson in history: for those who learn least the lessons of history, end up paying for their folly. *A previously offered LLI course.*

- Week 1: What is revolution? Description and explanation of revolution
- Week 2: Those who own the country ought to run it: significance of land as a determinant of power
- Week 3: Southern aristocracy: the purveyors of America's slaveocracy
- Week 4: American gulag: basic construct of the concentration camp system known as plantations
- Week 5: Unholy competition between North and South, 1790-1860: the race for control of the economy and government and, therefore, the Nation
- Week 6: Confederacy as a revolution: the confederacy as a revolution from the Right
- Week 7: *Levee en Masse*: North and South, conscription of entire populations and economies for war
- Week 8: Flirtation with dictatorship: Lincoln and Davis, autocrats?

Mark Albertson is the historical research editor at *Army Aviation* magazine. He has authored books, written articles in magazines and newspapers and presents courses and talks on a wide variety of topics, including history, current events and politics.

Classic Novellas: Longer than a Short Story; Shorter than a Novel

March 13, 20, 27, April 3, 10, 17

In-Person 1:10 pm – 2:50 pm

Broad, generic distinctions exist between the short story and the novel—with respect to length, numbers of characters, plots, sub-plots and themes. Novellas—long short stories, or short novels—bear some of the same characteristics and distinctions; however, it is not a precise science. Suffice it to say, the novellas chosen for this class—ranging from light-hearted, to science fiction, to gothic—are all great works of literature and worthy of our attention. Full appreciation of the works to be discussed will be enhanced by reading these novellas in advance of class and, where possible, links will be provided. Summaries, analyses and biographical materials on the authors will also be provided to enhance your experience. We encourage inclusive group discussion.

Modern Warfare: Lessons from Ukraine

March 27, April 3, 10, 17, 24, May 1, 8, 15

In-Person 1:10 pm – 2:50 pm

The war between Russia and Ukraine has revolutionized modern warfare in more ways than any other recent war. What many assumed would be a relatively short, decisive war in Russia's favor has become a continual contest of endurance, political will, and adaptation. We discuss why the ostensibly superior Russia has been unable to defeat and subjugate Ukraine. We also discuss how the Russia-Ukraine war has changed warfare on political, economic, military, cyber, information, and nuclear fronts. The course focuses on how the West can apply lessons from the Russia-Ukraine war to improve its deterrence and defense capabilities.

- Week 1: War of attrition: the political dimension
- Week 2: War of attrition: the military dimension
- Week 3: War of attrition: the economic dimension
- Week 4: The changing nature of fighting in the information domain
- Week 5: How drone combat in Ukraine is changing warfare
- Week 6: The Russia-Ukraine War: lessons for irregular warfare
- Week 7: The changing role of cyber operations

Herald of a New World Order, Part I: European Theater

March 13, 20, 27, April 3, 10, 17, 24, May 1 Hybrid 3:10 pm – 4:50 pm

With 2025 being the 80th anniversary of the final year of man’s greatest industrialized war, it is necessary to review why this conflict was waged and its impacts on our tumultuous world. Overall, it amounted to the collapse of European global dominance, and the rise of a new balance of power—that of the United States and the Soviet Union. Most of us lived in the post-1945 era, known as the Cold War.

But the war did not start in 1939, rather in 1914. The Great War had two chapters: 1914-1922 and 1931-1945. The complexities and sophistication of modern societies and the evolving nature of capitalism are two of the major causes of the rise of modern class structures. Those replaced the ancient monarchical regimes that had outlived their usefulness. This course focuses on the European Theater and lays the groundwork for the upcoming fall session, Part II: The Pacific Theater.

- Week 1: Background to man’s greatest industrialized war, 1914-1922; 1931-1945
- Week 2: Fascism: Focus will be on this draconian version of capitalism
- Week 3: The Factory Floor: Explanation of corporate war from the factory floor
- Week 4: *Levee en Masse*: The origins and history of conscription of entire populations and economies
- Week 5: 1939-1942: Overview of the first half of the conflict
- Week 6: 1943: Allies take control of conflict. Battle focus: Kursk
- Week 7: 1944: Allies dominate the conflict. Battle focus: Operation Bagration
- Week 8: 1945: United States and Soviet Union win the conflict: Battle focus: Berlin

March 14, 21, 28, April 4, 11, 25

In-Person

10:10 am – 11:50 am

This is an expansion of the course taught in the Fall, and it is not necessary to have taken the previous course. This is a hands-on class designed to help each student become more proficient with their computers. Each class is divided into two parts, a presentation and discussion of the topic, followed by a practical session with each participant using the computer with their new knowledge. This is an opportunity for students to ask questions, learn new tips and tricks to become more effective with a computer and to practice with instructors during class. The syllabus is flexible and changes can be made based on class interest. We incorporate Artificial Intelligence (AI) in each lesson where applicable and we devote one class specifically to AI.

March 14 - The Anza-Borrego Desert and Beyond

Dave Pressler shares his visual presentation about his 2023 adventure to a mostly unknown southeastern California desert, and sites surrounding this vast natural area. This experience takes us through the scenery of eastern California, from snow covered landscapes, high mountains, lakes and the Salton Sea, to dry desert vistas and unusual lava-formed rock landscapes—some which portrayed the ‘American West’ of the western movie era. Of special note are the Borrego Badlands, a vast corrugated landscape, as far as the eye can see, of clay cliffs and channels, once filled with water and a site of animal and plant fossils. Throughout Anza-Borrego are some notable surprises, including over 130 giant sculptures of creatures that once lived in this region: dinosaurs, mammoths, giant turtles, insects and more—also colorful desert wildflowers, cacti and California Fan Palm trees. Join us for this eye-opening experience.

David Pressler holds a degree in Industrial Design from Rhode Island School of Design, where he first studied photography with the famed photographer Harry Callahan. In his late teens he was gifted two Zeiss cameras by his grandfather, and ever since then he's been documenting what he has seen around him. His core message is to encourage people everywhere to become *visually conscious* of the world around them. "Learn to look, in order to see," and keep an open mind and...don't forget to also keep your eyes wide open! He has widely exhibited his diverse works in many media in Fairfield and Westchester Counties. He is a Guild Member and former Trustee of the Silvermine Arts Center, New Canaan and Artist Member of the Center for Contemporary Printmaking, Norwalk. His professional career as a design consultant for major corporations has included Experimental Educational Materials Development for the American Museum of Natural History, New York; Field Museum of Natural History, Chicago and others. His name appears on design patents for Kodak, Warner-Lambert, Hasbro and BASF.

April 4 - What Good Are DNA Tests Anyway?

Multiple DNA tests—combined with Genealogy best practices, tips and other investigative techniques—enabled an LLI member to reunite with her birth mother's and birth father's families. Her perseverance allowed her to receive her birth mother's name, age at the time of her birth, and occupation as well as her birth father's age from Catholic Charities, once Massachusetts opened its birth records to adoptees. The detective work included online newspapers, cemetery records, genealogy documents from both sides of the Atlantic, contacting potential family members (who agreed to test) and DNA test analysis. Her case demonstrates that DNA test results cannot replace traditional Genealogy research, though together they work well to discover one's roots.

Janeen Bjork Television researcher Janeen Bjork applied the detective, analytic and presentation skills she garnered in a 30-year career to her family tree and then to the trees of friends, students and clients. In addition to over 10 years teaching Genealogy throughout New England, New York and Florida, Janeen has written or co-written four family history books

April 11 - Jack Benny

The Jack Benny Radio Program was the most successful comedy program from the Golden Age of Radio. The show was a departure from the norm whereby the star became the fall guy with his cast delivering the funny lines, a cast that was arguably the finest ever assembled.

Joe Gianquinto is a 38 year veteran of the television industry having had successful stops at ABC, NBC, ESPN and Westinghouse. Retirement years include writing lyrics and producing slide presentations. Joe resides in Old Greenwich with his wife of 57 years, Margaret, and is the proud father of four daughters, thirteen grandchildren and one newly-minted great granddaughter!

April 18th – No Lunch and Learn

Kevin will have a special guest with him, so this will be an event you don't want to miss!

May 2 – Alternatives to Violence Project – Jackie Labatt-Simon

In 1975, the Alternatives To Violence Project was begun by men incarcerated at Green Haven Penitentiary in New York; they had witnessed the Attica riots and the “revolving door” they clearly saw in their institution, and were concerned with the increase in violence in prisons and cities. They drew on help from the Quakers and Bernard Lafayette, an associate of Martin Luther King, and the project is now in over 60 countries and 35 states. It is experiential rather than lectures, and many participants change dramatically over the course of three-day workshops. The Alternative to Violence Project celebrates its 50th anniversary this year with an international conference at Manhattanville University in Purchase, New York.

Jackie Labatt-Simon is a former marketing research executive who has been volunteering in prisons since 1998. She began by volunteering with her church, meeting with men getting their Master's Degrees while at Sing Sing Penitentiary. She was so impressed with the men she met, she wanted to do more with them and discovered the Alternatives to Violence Project. She was coordinator at Sing Sing for over ten years, and is now the AVP coordinator at the Westchester County Jail.

Please show your LLI ID at the Lunch & Learn welcome table and obtain an entrance ticket. Tickets are distributed on a first-come, first-served basis. The number of tickets is limited to the maximum capacity of the room.

Attendees at Brown Bag Lunch & Learn programs should exercise care in walking to and from the seats in the East Campus Forum. Moderators rotate among the club coordinators and the Film Club members, who take turns doing research on some of these topics regarding a particular film and share what they've learned with the group.

All films are available via streaming services such as Amazon, Netflix, and YouTube, with an occasionally inexpensive rental cost (usually \$2.99 or \$3.99) or through local libraries that provide either CD lending or online free access.
